# 1 INTRODUCTION

Maxwell Ventures (Management) Pty Ltd, a wholly owned subsidiary of Malabar Resources Limited (Malabar) owns and operates the Maxwell Underground Coal Mine Project (Maxwell UG Mine). The site is in the Upper Hunter Valley of New South Wales (NSW), east-southeast of Denman and south-southwest of Muswellbrook. The site is approved to extract a maximum of 8 million tonnes of run-of-mine (ROM) coal per year over a period of 26 years with construction expected to commence during the next reporting period.

The site consists of the following areas:

- Underground area comprising the proposed area of underground mining operations and the mine entry area (MEA) to support underground mining and coal handling activities and provide for personnel and materials access;
- Maxwell Infrastructure (formerly Drayton mine) comprising previous open cut mining areas, existing coal handling and preparation plant (CHPP), train load-out facilities and rail loop, Antiene rail spur and other infrastructure and services; and
- Transport and services corridor between the underground area and Maxwell Infrastructure comprising the proposed site access road, covered overland conveyor, power supply and other ancillary infrastructure and services.

This annual compliance report has been prepared to address Condition 17 of EPBC Approval 2018/8287 (as varied) issued under the Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC) held by Maxwell Ventures (Management) Pty Ltd).

[This annual compliance report was initially submitted to the Department of Climate Change, Energy, the Environment and Water \(DCCEEW\) on 31 March 2023. The annual compliance report was amended \(Revision 1\) on 22 April 2024 and resubmitted to DCCEEW with changes made to Conditions 2, 4, 17, 18 and 19.](#)

## 2 COMPLIANCE TABLE

In accordance with Condition 17 of Condition 17 of EPBC Approval 2018/8287 this report provides a statement of compliance against the approval conditions.

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
<p>Part A – Conditions specific to the action.</p> <p>Water Resources</p> <p>The objective of conditions 1 to 9 is to minimise the impacts of the action on a water resource.</p>			
1	<p>The approval holder must ensure there is no adverse effect on the function of a water resource as a result of the action.</p> <p>The approval holder must achieve and maintain the performance measures required by condition B40 and C1 of the State development consent and demonstrate, with evidence, in each compliance report, whether these performance measures have been achieved, and if so, are being maintained.</p>	Compliant	<p>The Maxwell Underground Mine Water Management Plan has been developed to address these conditions. The 2022 Annual Review, produced as a requirement of Condition E11 of State Significant Development Consent (SSD 9526) and available via the Malabar Resources website, demonstrates with evidence that the performance measures have been achieved and are being maintained.</p>
2	<p>For the protection of water resources, the approval holder must comply with conditions B27, B28, B35, B36, B37, B38, B39, B40, B41, B42, B43 and B44 and Part B and C1, C2, C8 and C10 of Part C of the State development consent (to the extent the conditions in Part C relate to a water resource).</p>	<u>Non-Compliant</u>	<p>The Maxwell Underground Mine Water Management Plan has been developed to address these conditions. The 2022 Annual Review, produced as a requirement of Condition E11 of SSD 9526, <del>demonstrates with evidence that provides evidence against</del> the performance measures <del>have been achieved and are being maintained</del>.</p> <p><u>On 8 March 2022 a non-compliance with Condition B36 of the State Development Consent occurred when the Rail Loop Dam overflowed via the designated spillway.</u></p>

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
3	The approval holder must provide the Department with the final version of the Water Management Plan required by condition B42 of the State development consent within 2 business days of its approval by the NSW Planning Secretary.	Compliant	Final version of the Water Management Plan was issued to the Department on 2 December 2021.
4	The approval holder must notify the Department within 2 business days of any proposed changes to the final version of the Water Management Plan. If the NSW Planning Secretary approves a revised version of the Water Management Plan, the approval holder must provide the Department with the approved revised Water Management Plan within 2 business days of its approval by the NSW Planning Secretary.	Non-compliant (Administrative)	<p>The Water Management Plan was updated in August 2022 in accordance with the review process detailed in Condition E7 of SSD 9526. Changes were administrative only (i.e., there were no material changes to the plan, monitoring or controls). Maxwell did not notify the department within 2 business days.</p> <p>The Water Management Plan was again updated in February 2023 (outside of the reporting period) following approval of the Modification 2 to SSD 9526. Changes were administrative only (i.e., there were no material changes to the plan, monitoring or controls). Maxwell did not notify the department within 2 business days.</p> <p>This was detected on 24 March 2023 and as such a copy of the plan was provided to the Department on this day. To avoid a reoccurrence, Maxwell have reviewed this event and implemented action to prevent reoccurrence.</p>

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
5	<p>In addition to the Groundwater Management Plan monitoring requirements specified in condition B42 of the State development consent, the approval holder must:</p> <p>a. Establish and maintain a network of groundwater monitoring bores across the Development Application Area designed to detect changes in groundwater levels. These monitoring bores must be installed prior to the commencement of the action.</p> <p>b. Monitor groundwater levels in each bore (required under condition 5.a.) at least once every 3-months, starting within one week from the commencement of the action and continue until the completion of the action; and</p> <p>c. Publish on the website all groundwater monitoring data from all bores, updated at least once every 3 months to add the most recent readings and maintain the data on the website until the completion of the action. The monitoring data must include hydrographs for all monitoring bores and explain what the data means in relation to the groundwater performance measures specified in the State development consent.</p>	Compliant	<p>a) The 2022 Annual Review provides details of the network of groundwater monitoring bores across the Development Application Area which has been designed to detect changes in groundwater levels. These bores were installed many years ago, prior to the commencement of the action (commencement of action notified to the Department as being 16 May 2022).</p> <p>b) Groundwater levels in each bore are monitored at least once every 3 months, in accordance with the Water Management Plan.</p> <p>c) All groundwater monitoring data from all bores, updated at least once every 3 months, is published on the Malabar Resources website in the form of Quarterly Environmental Monitoring Data Reports. Reports include hydrographs for all monitoring bores and an explanation of what the data means in relation to the groundwater performance measures specified in SSD9526.</p>

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
6	<p>If, at any time until the end date of this approval:</p> <p>a. the approval holder detects an exceedance of any performance measures (including any trigger level), specified in the approved Groundwater Management Plan or Surface Water Management Plan required by condition B42 of the State development consent; and/or</p> <p>b. the groundwater model, including any updated version of the groundwater model required under condition B42 of the State development consent, predicts an exceedance of the groundwater performance criteria (including trigger levels), specified in the approved Groundwater Management Plan, the approval holder must notify the Department of the exceedance within 10 business days of detecting or predicting the exceedance.</p>	Not triggered	As detailed in the 2022 Annual Review, no exceedances of any performance measures (including any trigger levels) have occurred during the reporting period.

7	<p>If the approval holder detects or predicts an exceedance as described in condition 6, the approval holder must publish on the website an Impact Response Plan that has been peer reviewed. Each Impact Response Plan must:</p> <ul style="list-style-type: none"> <li>a. be prepared by a suitably qualified water resources expert</li> <li>b. describe all potential and actual impacts to water resources arising from the exceedance</li> <li>c. include conceptual modelling, as well as a review of all historical monitoring data to determine the stressorresponse relationships for any potential GDEs and consideration of potential contributing activities</li> <li>d. include local scale numerical modelling with consideration of potential contributing activities</li> <li>e. derive a scientifically-robust rectification strategy based on multiple lines of evidence and field data to support the assessment of the environmental value of water resources (including the groundwater-dependence of anypotential GDEs) within the predicted impact area</li> <li>f. identify if any further investigations are required to be undertaken to determine the cause of, and/or corrective actions, for the exceedance</li> <li>g. include the mitigation and management measures that the approval holder has taken and/or proposes to take to reverse the exceedance, including data demonstrating the effectiveness of the mitigation and management measures</li> </ul>	Not triggered	N/A
---	--	---------------	-----

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
	<p>h. provide justification for how the proposed mitigation and management measures will achieve and maintain the requirements of condition 1, and</p> <p>i. include a peer review, to be undertaken by an independent suitably qualified water resources expert, that including details of how the approval holder has addressed any inadequacies raised in the peer review.</p> <p>The approval holder must publish the Impact Response Plan report within 3 months of the detection or prediction of an exceedance, unless an alternative timeframe is agreed to by the Minister. The approval holder must notify the Department within 2 business days of the report being published and retain the report on the website for the life of the approval.</p>		
8	<p>Where the Minister is not satisfied that the rectification strategy outlined in the Impact Response Plan will ensure condition 1 will be, or is likely to be, achieved and maintained, the Minister may direct the approval holder to undertake specific corrective action(s) to manage impacts to water resources.</p>	Not triggered	N/A

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
9	The approval holder must not commence mining, other than first workings, of subsequent coal seams until the Impact Response Plan has been approved by the Minister. The approved Impact Response Plan must be implemented.	Not triggered	N/A

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
10	<p>Listed threatened species and ecological communities</p> <p>The objective of conditions 10 to 11 is to minimise impacts and compensate for residual impacts of the action on EPBC Act listed threatened species and ecological communities.</p> <p>10. Within the Development Application Area, the approval holder must not clear more than:</p> <p>a. 12.1 hectares of the Central Hunter Valley Eucalypt Forest and Woodland EPBC Act listed ecological community.</p> <p>b. 139 hectares of the White Box-Yellow Box-Blakely's Red Gum Grassy Woodland and Derived Native Grassland EPBC Act listed ecological community.</p> <p>c. 38.7 hectares of Pink-tailed Legless Lizard (<i>Aprasia parapulchella</i>) habitat.</p> <p>d. 157.1 hectares of Striped Legless lizard (<i>Delma impar</i>) habitat.</p> <p>e. 22.2 hectares of Regent Honeyeater (<i>Anthochaera phrygia</i>) habitat.</p> <p>f. 25 hectares of Swift Parrot (<i>Lathamus discolor</i>) habitat.</p>	Compliant	<p>At the end of the reporting period, Maxwell had cleared the following within the Development Application Area:</p> <ul style="list-style-type: none"> <li>a) 2.1 hectares of the Central Hunter Valley Eucalypt Forest and Woodland EPBC Act listed ecological community.</li> <li>b) 68.6 hectares of the White Box-Yellow Box-Blakely's Red Gum Grassy Woodland and Derived Native Grassland EPBC Act listed ecological community.</li> <li>c) 13.1 hectares of Pink-tailed Legless Lizard (<i>Aprasia parapulchella</i>) habitat.</li> <li>d) 74.7 hectares of Striped Legless lizard (<i>Delma impar</i>) habitat.</li> <li>e) 9.0 hectares of Regent Honeyeater (<i>Anthochaera phrygia</i>) habitat.</li> <li>f) 11.8 hectares of Swift Parrot (<i>Lathamus discolor</i>) habitat.</li> </ul>

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
11	The approval holder must comply with conditions B47, B48, B50, B50A, B51, B52, B53, B76, B77, B78, B79, B80, B81 and B82 of Part B and C1, C2, C3, C4 and C8 of Part C of the State development consent (to the extent these conditions relate to EPBC Act threatened species and ecological communities).	Compliant	All conditions complied with during the reporting period. The 2022 Annual Review, produced as a requirement of Condition E11 of SSD 9526, demonstrates with evidence that the performance measures have been achieved and are being maintained. All management plans and strategies are available via the Malabar Resources website.
Part B – Administrative Conditions			
12	Notification of date of commencement of the action The approval holder must notify the Department in writing of the date of commencement of the action within 10 business days after the date of commencement of the action.	Compliant	Maxwell letter dated 20 May 2022 provides notification to the Department of the date of commencement of the action (the action commenced on 16 May 2022).
13	If the commencement of the action does not occur within 5 years from the date of this approval, then the approval holder must not commence the action without the prior written agreement of the Minister.	Not triggered	N/A
14	Compliance records The approval holder must maintain accurate and complete compliance records.	Compliant	Maxwell maintains accurate and complete compliance records.

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
15	<p>If the Department makes a request in writing, the approval holder must provide electronic copies of compliance records to the Department within the timeframe specified in the request.</p> <p>Note: Compliance records may be subject to audit by the Department or an independent auditor in accordance with section 458 of the EPBC Act, and or used to verify compliance with the conditions. Summaries of the result of an audit may be published on the Department's website or through the general media.</p>	Not triggered	N/A

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
16	<p>Submission and publication of plans</p> <p>The approval holder must:</p> <ul style="list-style-type: none"> <li>a. submit plans electronically to the Department for approval by the Minister;</li> <li>b. unless otherwise agreed to in writing by the Minister;</li> <li>i. publish each plan on the website within 20 business days of the date the plan is approved by the Minister or of the date a revised action management plan is submitted to the Minister or the Department, unless otherwise agreed to in writing by the Minister;</li> <li>ii. publish the Water Management Plan on the website within 20 business days of the date the plan is approved by the NSW Planning Secretary</li> <li>iii. exclude or redact sensitive ecological data from plans published on the website or provided to a member of the public; and</li> <li>iv. keep plans published on the website until the end date of this approval.</li> </ul>	Compliant	<ul style="list-style-type: none"> <li>a. Water Management Plan submitted to the Department on 24 March 2023 (see comments for Condition 4).</li> <li>b. Noted.</li> <li>i) All management plans are published on the Malabar Resources website within 20 business days of the date the plan is approved.</li> <li>ii) The Water Management Plan was published on the Malabar Resources website within 20 business days of the date the plan was approved.</li> <li>iii) No sensitive ecological data.</li> <li>iv) All plans required are present on the website.</li> </ul>

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
17	<p>Annual compliance reporting</p> <p>The approval holder must prepare a compliance report addressing compliance with each of the conditions of this approval, including implementation of any management plans and strategies from the State development consent that are referred to in this approval, every calendar year, or otherwise in accordance with an annual date that has been agreed to in writing by the Minister. The approval holder must:</p> <ul style="list-style-type: none"> <li>a. publish each compliance report on a website within 3 months following the relevant 12 month period,</li> <li>b. notify the Department by email that a compliance report has been published on the website and provide the website's link for the compliance report within five business days of the date of publication,</li> <li>c. keep all compliance reports publicly available on the website until this approval expires,</li> <li>d. exclude or redact sensitive ecological data from compliance reports published on the website, and</li> <li>e. where any sensitive ecological data has been excluded from the version published, submit the full compliance report to the Department within 5 business days of publication.</li> </ul> <p>Note: Compliance reports may be published on the Department's website.</p>	Compliant	<ul style="list-style-type: none"> <li>a. Annual compliance report (this document) addresses compliance with each of the conditions of EPBC Approval 2018/8287, covering the period calendar year 2022, published on the Malabar Resources website by 31 March 2023. <u>The annual compliance report was amended (Revision 1) on 22 April 2024 and republished to the website with changes made to Conditions 2, 4, 17, 18 and 19.</u></li> <li>b. Email sent to the Department by 5 April 2023 notifying that a compliance report has been published on the website.</li> <li>c. All compliance reports retained on website.</li> <li>d. No sensitive ecological data – not triggered.</li> <li>e. No sensitive ecological data – not triggered.</li> </ul>

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
18	<p>Reporting non-compliance</p> <p>The approval holder must notify the Department in writing of any: incident, or non-compliance with the conditions, or non-compliance with the commitments made in plans. The notification must be given as soon as practicable, and no later than two business days after becoming aware of the incident or non-compliance. The notification must specify:</p> <ul style="list-style-type: none"> <li>a. any condition which is in breach,</li> <li>b. a short description of the incident and/or non-compliance,</li> </ul> <p>and</p> <ul style="list-style-type: none"> <li>c. the location (including co-ordinates), date, and time of the incident and/or non-compliance. In the event the exact information cannot be provided, provide the best information available.</li> </ul>	<p><u>Not triggered</u><u>Non-compliant</u></p>	<p><u>Maxwell did not notify DEECCW of the 8 March 2022 incident and any potential non-compliance with Condition 2.</u></p> <p><u>Upon discovering on 24 March 2023 that Maxwell was non-compliant with Condition 4, Maxwell promptly provided DEECCW with a copy of the revised Water Management Plan by email on the same day. The email did not specify which condition might be in breach or provide a description of the non-compliance or any timeframes.</u></p>

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
19	<p>The approval holder must provide to the Department the details of any incident or non-compliance with the conditions or commitments made in plans as soon as practicable and no later than 10 business days after becoming aware of the incident or non-compliance, specifying:</p> <p>a. any corrective action or investigation which the approval holder has already taken or intends to take in the immediate future,</p> <p>b. the potential impacts of the incident or non-compliance,</p> <p>and</p> <p>c. the method and timing of any remedial action that will be undertaken by the approval holder.</p>	<p><u>Not triggered</u><u>Non-compliant</u></p>	<p><u>Maxwell did not notify DEECCW of the 8 March 2022 incident and any potential non-compliance with Condition 2.</u></p> <p><u>Upon discovering on 24 March 2023 that Maxwell was non-compliant with Condition 4, Maxwell promptly provided DEECCW with a copy of the revised Water Management Plan by email on the same day. The email did not provide details of the non-compliance or specify any corrective actions, potential impacts or timeframes for remedial action in relation to the non-compliance.</u></p>
20	<p>Independent audit</p> <p>The approval holder must ensure that independent audits of compliance with the conditions are conducted as requested in writing by the Minister</p>	<p>Not triggered</p>	

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
21	<p>For each independent audit, the approval holder must:</p> <ul style="list-style-type: none"> <li>a. provide the name and qualifications of the independent auditor and the draft audit criteria to the Department,</li> <li>b. only commence the independent audit once the audit criteria have been approved in writing by the Department,</li> <li>and</li> <li>c. submit an audit report to the Department within the timeframe specified in the approved audit criteria.</li> </ul>	Not triggered	
22	<p>The approval holder must publish the audit report on the website within 10 business days of receiving the Department's approval of the audit report and keep the audit report published on the website until the end date of this approval.</p>	Not triggered	
23	<p>Completion of the action</p> <p>The approval holder must comply with condition A6<sup>1</sup> in Schedule 2 of the State development consent.</p>	Not triggered	
24	<p>Within 30 days after the completion of the action, the approval holder must notify the Department in writing and provide completion data.</p>	Not triggered	

Condition Number	Condition	Compliant/ Non-Compliant/ Not Triggered	Evidence/ Comments
25	<p>Changes to State development consent</p> <p>The approval holder must notify the Department in writing of any proposed change to the State development consent that may relate to protected matters within 2 business days of formally proposing a change or and within 5 business days becoming aware of any proposed change.</p>	Compliant	<p>Early notification regarding Modification 1 (MOD1) to SSD 9526 was made to the Department on 11 October 2021. A meeting was held with the Department on 15 October 2021 to provide an overview of MOD1.</p> <p>Early notification regarding Modification 2 (MOD2) to SSD 9526 was made to the Department on 15 August 2022. A meeting was held with the Department on 5 September to provide an overview of MOD2. Further notification was made to the Department on 14 October 2022 noting that the NSW Department of Planning and Environment had recommended MOD2 for approval.</p>
26	<p>The approval holder must notify the Department in writing of any change to the State development consent conditions that may relate to protected matters, within 10 business days of a change to conditions being finalised.</p>	Compliant	<p>MOD1 was approved 19 November 2021. Notification was made to the Department on 22 November 2021.</p> <p>MOD2 was approved on 20 October 2022. Notification was made to the Department on 21 October 2022.</p>

<sup>1</sup> Condition A6 in Schedule 2 states that mining operations may be carried out on the site until 30 June 2047.

### **3 NEW ENVIRONMENTAL RISKS**

No new environmental risks from the Project were identified during the reporting period.

## 4 DECLARATION OF ACCURACY

In making this declaration, I am aware that sections 490 and 491 of the Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) make it an offence in certain circumstances to knowingly provide false or misleading information or documents. The offence is punishable on conviction by imprisonment or a fine, or both. I declare that all the information and documentation supporting this compliance report is true and correct in every particular. I am authorised to bind the approval holder to this declaration and that I have no knowledge of that authorisation being revoked at the time of making this declaration.
