

CHPP Superintendent

The **Maxwell Underground Project**, owned by **Malabar Resources Ltd** has commenced construction and production of up to 8 million tonnes of coal per annum. With a long life, the underground mine targets high quality coal, with the majority being metallurgical coal.

Malabar is now seeking an energetic and skilled **Coal Handling and Preparation Plant (CHPP) Superintendent**. This key leadership role will form part of the team that operates and manages the infrastructure, CHPP and logistics from pit mouth to port for the new highly productive, world class underground longwall mine. The role will be fundamental in the development and operational success of the Maxwell Underground Mine and will be based at the Maxwell site, 10 minutes from the township of Muswellbrook.

The CHPP Superintendent is accountable for restarting an existing CHPP, establishing a workforce, then operating it. The successful candidate will appreciate the opportunity to create a productive and safe culture with a new workforce and systems to support it. The role reports to the Manager – Infrastructure, CHPP and Logistics.

Specific responsibilities include:

- Overall management of the operation of CHPP from primary crusher to TLO,
- Accountability for the CHPP budget,
- Leadership to drive execution of the weekly, monthly and annual plans,
- Monitoring of plant performance and process improvement,
- Systems and operational readiness.

Requirements:

- A tertiary engineering qualification in Process, Mechanical or Electrical Engineering is desirable. Recent experience in the operation of CHPPs is essential.
- Attractive remuneration packages will be offered to secure the preferred candidate.

This position requires a can-do attitude and hands-on approach. The successful candidate must be prepared to contribute effectively in a lean team environment. An attractive remuneration package will be offered to secure the preferred candidate.
