

Commercial Manager

It's not every day you have the opportunity to be involved in the start-up of a new mine... To make your mark and be there from the beginning. Well, here is that long-awaited, unique opportunity to do just that – a Greenfield mine in the Hunter Valley with all the associated excitement of building and being part of something new.

The **Maxwell Underground Project**, owned by **Malabar Resources Ltd** has commenced construction and production of up to 8 million tonnes of coal per annum. With a long life, the underground mine targets high quality coal, with the majority being metallurgical coal.

An opportunity exists to join the Malabar Resources leadership team as the **Commercial Manager**. The role will be **based at the Maxwell site**, 10 minutes from the township of Muswellbrook.

Reporting to the General Manager, you will be responsible for all commercial aspects of the business, including life of mine plans, annual budgets and monthly forecasts, supply agreement and contracts, and financial reporting. Key to your role is supporting the project and operations team in financial analysis and delivering outcomes. Your focus will be on long term business goals whilst also managing the commercial department for the business.

- Experience in **project development** will be well regarded.
- Making your mark by **setting up systems from the start** is an important and exciting aspect of this role. You will be responsible for delivering systems vital to this **start-up phase** that create robust and accurate financial and operational reporting to the management and board, providing financial governance, analysis, and insight into underlying performance. Your demonstrated experience in or capacity to do so will be key to your success.
- Exposure to coal, particularly underground coal, whilst not essential, will be considered beneficial.

To be considered, you will have relevant tertiary qualifications in accounting together with relevant demonstrated experience in a mine site environment.

Attractive remuneration packages will be offered to secure the preferred candidate.
