Dear Mr Booth

RE: APPLICATION TO AMEND GATEWAY CERTIFICATE GA 13-6335

Thank you for your letter of 5 November 2014 in relation to amending the Gateway Certificate issued for the Spur Hill Underground Coking Coal Project (the Project).

The Mining and Petroleum Gateway Panel (the Panel) has reviewed the information that you have provided. The Panel notes the incorporation of an approximately 68 hectare area to the north western extent of the Project area, as shown at Figure 1. Amendment Area included with your letter of the 5 November 2014. The Panel has determined that your amendment does not involve any further impact to Biophysical Strategic Agricultural Land or impact on any mapped critical industry cluster land and is therefore of the opinion that there is no requirement to amend the Gateway Certificate issued by the Panel on 19 March 2014.

Yours sincerely
